

InteliClean

Intelligent Hygiene Systems

Complete Range

V2023 COMPLETE

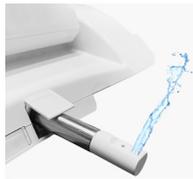

Australia's most advanced bidet system is finally here. This fully certified bidet does not require additional backflow device for installation. And it is packed with features previously not available.

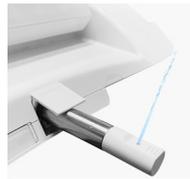

The IntelliClean Air 9000 Series has all the standard features, such as: bottom wash, ladies wash, air dryer, enema spray and child function. Advanced features of this bidet include a multi-position, 5-step nozzle adjustment as well as pulse and oscillate settings to provide a much cleaner wash. This bidet is made for ease of use.

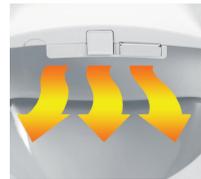

Rear wash

Ladies wash

Enema wash

Air dryer

Heated Seat

5 step adjust

Pulse & Oscillate

Deodoriser

You are never perfectly clean with toilet paper.

Remote control

Can be wall mounted or held in hand.

Advanced technology has allowed so many features and functions to be compressed in to a simple slimline design.

Power usage

Economy mode.

With normal use, this bidet will only cost \$12.00 per year for electricity.

That's less than 4 cents per day.

Advanced seat design

180kg weight rating.

Unlike other bidets on the market that only hold up to 120KG.

Lid safety features

A soft close lid that is safe to sit on.

Previously unheard of, this lid is designed to allow a person to sit on the lid without causing damage.

Advanced cleaning

Quick release function.

Can be removed with just the press of a button to allow for cleaning under the bidet.

The bidet can also be operated by buttons on the side.

Designed with the user in mind, this machine can withstand substantial mass with its 180KG weight rating and sit on lid.

For easy cleaning, just press the quick release button and the bidet will slide straight off.

Child settings

Designed for all ages.

Automatically adjusts when the child button is pressed, reducing pressure and temperature.

Anti-microbial plastic

Repels germs.

The materials used throughout this bidet are highly efficient at protecting against bacteria, fungi, viruses and germs. Acting as a non-toxic health barrier.

MF Filter

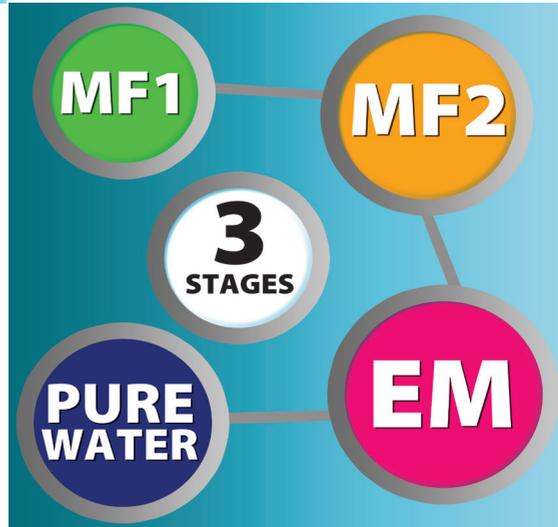

2 Stage External Filter.

1. The sediment filter removes particles from the water before it enters the bidet. Protecting your internal heating systems.
2. Water then passes through the ceramic balls, collecting silver ions that attack bacteria, germs and viruses.

EM Ceramics

Final Stage of Purification.

3. The activated ceramics restructure the water molecules providing a superior cleansing action, helping to absorb toxins and impurities as it washes you.

Virus and Germ Removal

3 stage protection system.

The IntelliClean series bidet is the only bidet in Australia to provide a 3 stage protection system. Providing a safer, cleaner and more hygienic wash than any other bidet system on the market.

Warranty

2 years full replacement.

If anything goes wrong with the internal elements of your bidet, it may be replaced free of charge. T&C's apply.

Visit InteliClean.com.au/warranty for more info.

Toilet Compatibility

Standard

- A: 490mm or above
- B: 135-195mm
- C: 320-330mm*
- D: 420mm or above

*Porcelain may show on fittings under 330mm. C measurement is 310mm without shroud.

Toilet Compatibility

Elongated

- A: 510mm or above
- B: 135-195mm
- C: 350mm or above*
- D: 440mm or above

*C measurement is 330mm without shroud.

Top or Bottom fixing bolt options available.

To be installed by a licensed plumber. Power point and external tap required. Water Pressure 100-680KPA.

The Inteliclean Air 9000 Series is compatible with all of our recommended health care accessories. The versatility for users along with its slimline design and integral high hazard backflow device makes the Air 9000 Series the most advanced bidet available in Australia today.

Raisers

Support Arms

Bariatric Arms

Endeavour Arms

Pee Guard

Aerolet Lift

Raisers

50mm & 80mm available.

The IntelliClean bidet automatically raises the seat height by 40mm. Integrating the bidet with raisers allows the user to have their toilet raised an additional 50 to 80mm.

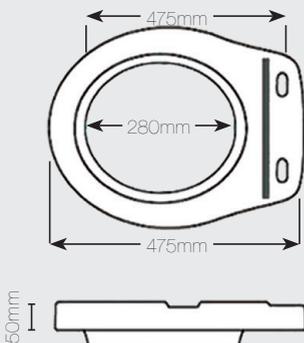

Tested to hold up to 250KG.

Our 50mm and 80mm raisers can be used alone or in combination with the 3 in 1 or bariatric arms.

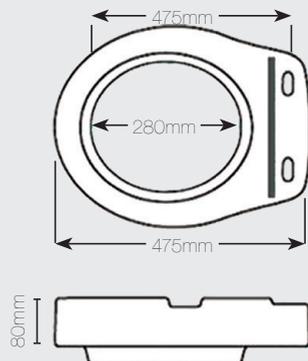

Raisers are simple to use, removable and cause no damage to the bathroom.

50mm Raiser

80mm Raiser

Removable Arms

Adjusts 3 ways.

Attaches directly to toilet. Arms can be splayed, vertical or folded down. Can be used alone or with raisers.

Tested to hold up to 120KG.

Bariatric Arms

Support for larger builds.

Free standing feet with rubber grips allows the bariatric arms to be supported by the floor as opposed to the toilet itself. Can be used alone or with spacers.

Tested to hold up to 250KG.

Endeavour Arms

Extra height system.

This removable, all in one arms and raiser package can adjust the height between 50mm and 150mm. The arms can be removed or folded backwards.

Pee Guard

Preventing accidents.

The Pee guard easily attaches and detaches from the toilet. Fully integrates with the Air 9000 Series bidet and accessories, the pee guard prevents accidents when men are seated on the toilet.

Aerolet

Toilet Lift

The user presses the button on the arm and the seat begins to raise, when the person feels that the seat has reached a height that is comfortable they just release the button and move away.

When going to the toilet simply lean against the seat and then press the down button and the Aerolet lift will lower them unto the toilet with ease.
