ECO BIDET

EB-R500

2024 RETAIL

WMTS 051
20094

Eco Bidets are manufactured specically for Australia. The Eco Bidet range are ergonomically designed for your comfort and include all the features you would expect from a premium bidet.

Environmentally
Friendly

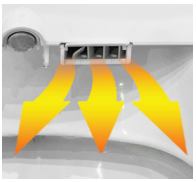
The Eco Bidet just replaces your existing toilet seat.
All the parts for a standard installation come in the box.

The EB-R500 is the flagship of the Eco Bidet range. Incorporating all of the features of other luxury bidets while using a fraction of the electricity.

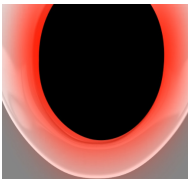
Rear wash

Ladies wash

Enema wash



Air dryer



Heated Seat

Child Mode

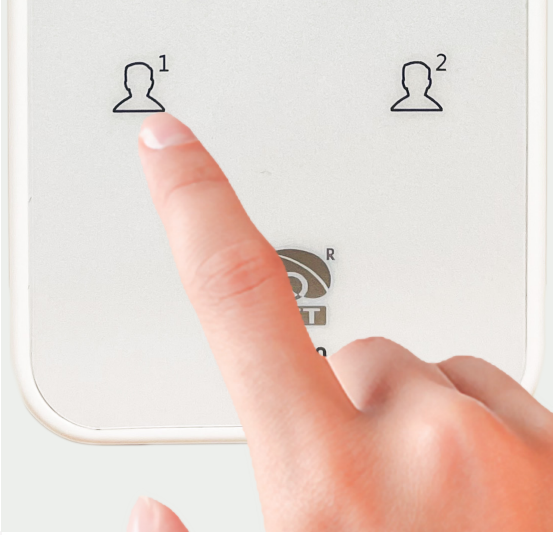
Massage & Move

Deodoriser

Two Person Memory

The EB-R500 remote can remember the preferred wash and temperature settings of two different users.

The touch pad makes operating the remote so easy.



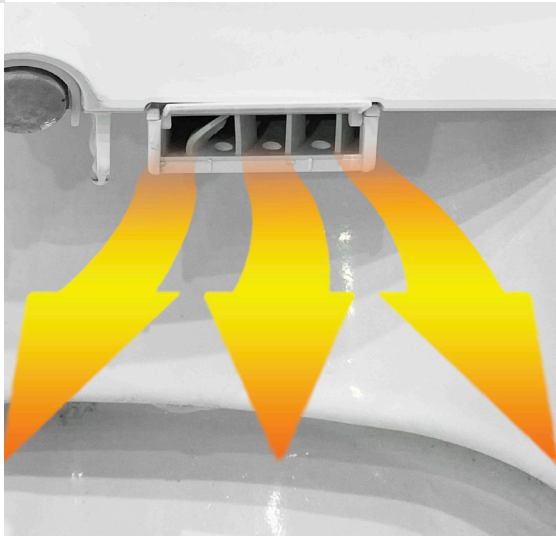
Child Wash

Just press the "child wash" button on the side control and the pressure and temperature of the wash are automatically halved.

Instant Heat & Dry

Just press the wash button and in a few seconds a gentle stream of warm water will clean you thoroughly.

Then press the dry button to activate a gentle flow of warm air.



Quick Release

The bidet seat can be removed with just the press of a button to allow for cleaning under the bidet.

Power Saving

The Eco Bidet is the most advanced power saving bidet range available on the market today. Each wash costs less than a quarter of a cent.

Along with the savings in toilet paper usage, the Eco Bidet does a lot for the environment.

Deodoriser

Bad odours are removed when the air is sucked from the bowl through a charcoal block neutralising any smells.

This feature automatically starts when you sit on the bidet.

Microbial Plastic

The external plastic components of the seat, lid and top case are treated with an antimicrobial coating to stop bacteria from living on your bidet.

Colloidal Silver Filter

The filter is so easy to change, it just unscrews from the T-piece.

Not only does it protect your bidet from waterborne particles, it's antibacterial components protect you as well.

Germ & Virus Protection

The colloidal silver impregnated ceramic filter helps remove bacteria, germs, and viruses.
